

RED TOUR

Goreme Open Air Museum

1

Love Valley Panorama

2

Devrent Valley

3

Classical Red Tour with lunch will start at 09:30 from your hotel in Goreme or little earlier from other towns (we will let you know about the pick-up time from other towns at the time of booking) and drive to the most important place in Cappadocia: Goreme Open Air Museum. The museum is a big monastery complex and there are 9 churches over 1000 year-old that you can visit. It is a UNESCO World Heritage Site since 1985 and our guide will give information about the history of the region & museum. After visiting the site about 1,5 hours, we will drive to Love Valley Panorama Point to see some interesting shaped fairy chimneys and Red & Rose Valleys from a nice angle.

Then, we will drive to Pasabag Fairy Chimneys to see the best-protected fairy-chimneys in Cappadocia region. Pasabag is also called as "Monks Valley" and there are a lot of multiple-headed fairy chimneys. Our guide will give you information about the formation of these fairy chimneys and the entire region as well. After the visit, we will drive to Avanos to have our lunch in a small boutique restaurant..

After lunch, we will see the kick-wheel pottery demonstration in Avanos which is an art almost 4000 years old inherited from the Hittites. Then, we will drive to Devrent Valley to see the camel-shaped fairy chimney. The valley is also called as Imagination Valley, because there are many formations look like mushrooms, seals, fingers and other shapes depending on your imagination. After this visit, we will drive you back to your hotel around 15:30.
